Subject Calls for certain information
12-4-48

From
The Dy Commr, Bangalore Dt
No M 6-6404/46-47 dated 11 8 48

Remarks Re Report called for

46) The estimates prepared in 1946 for the sinking of four more wells for Rs 10000/- is felt to require revision due to the high cost of carriage of pipes and the increased rate of incidental labour charges, and also the number of wells required depends upon the yield of each well to be sunk Hence the present estimate of Rs 10000/- cannot be taken as final to determine the mode of financing the Scheme

47) The D C has however suggested the meeting of the cost wholly by the Govt as an outright grant or on equal proportion between the Govt and the Municipal Council The latter may given a loan to meet its share of cost on terms of its own finances The repayment of the loans

5346 Municipal,

Water supply Scheme for Nagar town

According to the Engineer's Report it is to be secured by a judicious adjustment of the available funds and economy in Resources by the levy of water Rate Revision of Taxes and formation and disposal of Sites for which there is Stated to be an acute need All this Requires a Speaple Resolution of the Municipal Council

48) Thus it may perhaps be difficult to pass any final orders on such an ~~incomplete~~ proposal and the questions may perhaps ~~to~~ have to await until a Revised Estimate is prepared

49) For orders of further information etc etc may be called for from the Dy Commr

Vide 7/8/48 ~~for 18-8-48~~ 50) The D C's report is ~~for~~ for perusal.

51) Before orders are passed, further details as above are necessary & they will be called for when the 4 Dy Commrs

Dy Commrs 4 S 48

Water Supply Scheme for Nagda Town

From

The Executive Officer, Nagda Municipal Council
No 1176-6404/46 dt 24/2/43

Estimate proposals on this subject

56) The Sanitary Engineer, though agreeing that the estimate for the Scheme Rs 10 000/ for the Sinking of four Bore wells may be Required Revision on Account of the high cost of Casing pipes and labour charges, is of the opinion that no final estimate can be prepared until the exact yield of each Bore-well is known and the number of bore wells to be sunk determined

57) He therefore suggests that Rs 10,000/- as per present estimate may now be made available to enable him Sinking one or two bore wells and test the yield to decide the number of wells Required

58) The Sanitary Engineer could not have furnished the estimate for the four bore wells Contemplated according to the current Schedule of Rates which he has not done

59) The Nagda Town Municipal Council has Resolved at its meeting held on 5.12.42 that the Loan of Rs 5000/ asked for could be Repaid from the increased Revenue to be derived from the Revised Taxes and by the levy of water Rate at annas four in the Rupee of Mohallah Tax (Taxes on lands and Buildings)

60) The abstract figures of the

112 1226/ad U 5872/ad,

Water supply Scheme in Narasaraopet Town

Budget of the Municipality for 48-49 are noted below -

Opening balance -	Rs 7664/
Receipts -	Rs 38,515/
Total -	Rs 46,179/
Expenditure -	Rs 35,148/
Closing balance -	Rs 11,031/

6) The DC recommends sanction to a water supply grant of Rs 5,000/ and a loan of Rs 5,000/ repayable in ten annual instalments in order to meet the cost of the present estimate and commence the work

7) This is an urgent matter which has been brought before the ~~Rot~~ last RA when the Secretary of the RA in the form of representation and an interpellation.

Submitted for orders.

Rao 9/2/48
P. 9/2/48

8) Even after all this correspondence, it is unfortunate that the records are not yet complete.

The estimate for Rs 10000/ for sinking four borewells at the place is not yet sent. No explanation is also furnished as to the non-availability in which the borewells are to be sunk and the rate at for which they are to be paid and the mode of

Water restrictions would also be required during the period of repairing the water mains of the town, if sanctioned, has also to be discussed. The Board should take action to levy the water rate in immediately

647 Since this question has been pending for Wellington two years and the Representation was also proposed to be moved at the R. a meeting, it is necessary to take action immediately to improve the water supply at Wellington, now that the Summer is fast approaching.

648 Hence pending further consideration of the question in detail, a grant of Rs 5000 may be sanctioned for carrying the water supply scheme during the current year for taking up trial bore wells (two at least) immediately. If these wells are found successful

14

5877/L-14

When the question of loan
the estimate for boring
— granting loan if necessary to be
dly — maybe thought of

b6) The above amount of Rs 3000/- may be
placed immediately at the disposal
of the Sanity Engineer, for sinking 15
tube wells & collecting the data
regarding yield for two months
the tube wells on a larger scale
would satisfy the requirement of the
entire Zone of Panchal as regards
Measurements may be prepared & action regarding
to be taken as above

b7) As above for orders

water-Supply to Hagadi Town - Request
for a loan of Rs 5,950/- 8358/md 1620/M.

From,
The Deputy Commissioner,
Bangalore District

No Mb 6401/46-47 of 28th May 52

Request to Sanction a loan of Rs 5,950/- at an interest of 5% P A to Hagadi Town Municipal Council, to meet the Municipal quota towards the sinking of bore wells

108) A sum of Rs 5000/- was sanctioned vide the 'N' G.O no d101/44-8/MI 61-48-3 of 5th Mar 49 as a water-Supply grant to Hagadi Town Md for taking up at least two trial bore-wells and collecting data for the preparation of the final estimate for the water-Supply Scheme to the Town

109) Kind reference is invited to the report of the Controller of Central Stores P W dept, regarding the progress made in the matter from the date of sanctioning the above grant. 'O'

110) It is seen from the above report that it has now been decided for sinking three bore-wells at an estimate of Rs 10,500/- and that a sum of Rs 4500/- out of the grant of Rs 5000 sanctioned has been utilised for testing the yield of the dug well, leaving a balance of Rs 4,550/-

111) That Md. Hagadi have resolved on 8/5/52 to request for a loan of Rs 5,950/- due to the unsatisfactory financial position

4550

10

of the Municipal Council

112) It is also reported that the loan amount will be repayed out of the anticipated income to be derived from the Sale of Sites by Hdtq near Kalya gate, and that the acquisition proceedings in the matter is almost Completed

113) The Financial position of the M.C for the year 1951-52 is given below

Opening Balance Rs 9,229
Receipts Rs 45,810
Total Rs 55,039
Expenditure Rs 42,344
Closing Balance Rs 12,695

114) A Sum of Rs 2 lakhs has been provided in the State Budget under the head "R-Loans and Advances by State Govt-Loans to Municipalities, Port funds etc

The proposal is for orders with Financial Concurrence

115) This may be put up after the budget session is over

6/6

7/6

From The Chief Engineer
RO 929-31/S.01/36/52

Forwards the copy of the letter No HC 8/48-US(1)/52 of the Dpt T M C Nagadi addressed to the DC Bluewas for personal Action has already been taken in the matter on a recommendatory received from the D.C. Blue Sit (vide para 108 to 115 above)

Water-Supply to Nagadi Town –
Request for a loan of Rs 5,950/-

1620/MI/JT/46

17) If approved the file will be sent after the L A sessions is over as ordered at para 16

KAS 14/6 x

SMN 14/6

18) Yes 16/6

Sushma KC 16/6

19) Re sent for orders. Even in the revised Budget estimates approved the L-A. a sum of Rs 2 lakhs have been provided under the head "R- Loans and Advances by the State Govt - Loans to Municipalities"

KAS 21/7

20) This question is pending from a very long time. When I was at Nagadi on the 18th, the Municipal Councillors again urged for the early sanction of loan asked for by them. Requested the work may be taken up early as the request may be examined & the papers sent up to me within a week.

19/8/92

20/8/92

21) The request of the Nagadi Town Municipal Council for a loan of Rs 5,950/- is for orders with financial concurrence (Paras 10 & 11 refer)

KAS 20/8

22) Whether the amount of loan now proposed is in the budget estimates for the year

20/8 Invariably this will be

23/8

Water Supply to Nagada Town —
Request for a loan of Rs 5,950/-

1620/M 1746

123) It is verified that no amount is available under the head "R-Loans and Advances - Loans to Municipalities", of the current year's State Budget

KAS 11/9/52 124) As no amount is available out of Loans to Mlhas", the question of granting further loan to this Mlty may have to be taken up next year

125) In this connection, one important point has to be brought to the notice of Govt ie orders were issued sanctioning a sum of Rs 5000/- vide G.O dated 5-3-49 (Flag A.) The order definitely stated that in view of the urgency of the matter and pending further Consideration of the question in detail, a sum of Rs 5000/- was sanctioned, to take up at least two bnd borewells and to collect data regarding yield per hour, etc

126) Then the Sanitary Engineer while starting the work pleaded his inability to start without the ground that the drills were at work

in some other place and that it would take
atleast 6 months to release them and
that the revised estimate was prepared
for Rs 6700 and that this estimate might be
Countersigned and the excess cost of Rs 1700/-
might be dispatched early. Also the reason
advanced that the drills are at work in
some other places may be accepted, yet
the work could have been taken up after
6 months as stated in the letter of Sanitary
Engineer dated 7-6-49 (Flag M'(2)). The
work was not taken up again the
proposal for sinking 4 bore wells was taken
up and sanction to the estimates for Rs 10,000/-
was being misused and the Superintending
Engineer was requested by the chief Engineer
to get the balance sum of Rs 5950 from the President
(Vide Flag "B", letter of the chief Engineer dated 5-2-52).
Consequently the work was not taken up again

127) It is clear that for some reason or
other the work is not started. It may be the
only place of it is mentioned that

1746 Water supply to Nagarathampatti
TPL

Two bore wells could have been Commenced and work Completed by now out of the sum of Rs 5000 sanctioned if the Sanitary Dept had taken up the matter either Seriously or according to Priority because the Sanitary Engineer himself had stated that the work would be taken up after 6 months

128) Therefore even now the Sanitary Dept may be instructed (1) to take up the work at once out of the amount given already // A.

and

(2) to obtain the explanations of those Concerned who are responsible for not taking up the work hitherto // B

Sir,

Sub Government grant for water supply scheme in Magadi Town Municipality

With refere ce to your letter No L. 16456-7 dated 28-6-47 calling for a note on the above subject, I have the honour to state that the Magadi Municipal Council have resolved at their meeting held on 25-6-47 that the Government be moved to sanction a grant of Rs 25000/- for the Water supply scheme in the Town

The people living in the Western parts of the Town are put to a lot of trouble and are resorting to the tank on the eastern side of the Town to fetch water The town is really in need of a protected water supply

I have this day addressed the Sanitary Engineer to furnish an Estimate for the Water supply Scheme On receipt of his reply, a final reply will be furnished as to the amount that will have to be sanctioned as a xxxxx grant to this municipality for taking up the

Water supply to Magady Town

As desired in your letter No L 16456-7 of the 28th May 1947, I have the honour to enclose herewith for the information of Government a copy of the detailed note on the above subject received from the Sanitary Engineer, Bureau of Sanitary Engineering, Bangalore

It may be seen therefrom that the source of water supply to the Town is either Gowrammanakere situated on the outskirts of the Town or ~~sanking~~ bore wells in the area These schemes will be examined after receipt of intimation about providing funds from the Municipality

SS 29/7

Continuation sheet

Note on the water supply to Magadi Town

In the year 1918 the investigations for the source of water supply for the town revealed that 287 wells had been dug in the Town of which 10 only were drinking water wells, the remaining being brackish water The yield from these wells was also scanty Gourammanakere situated on the outskirts of the town had been kept under Municipal control for 30 years prior to 1918, the tank being divided into two portions by a cross bund, one portion being used for washing and the other for drinking purposes Continuous neglect had brought the tank bund into a deplorable condition The population of the town, then was 3681

A scheme for water supply to Magadi Town was therefore prepared in February 1918 by the Sanitary Division, Bangalore, for - Rs 16,000/- and modified to Rs 15,500/-, the proposals therein being the improvement of Gourammanakere and construction of a separate pond for washing, - improvements of six drinking water wells situated in the town, and fitting hand pumps to them The Municipal Council resolved that estimates amounting to Rs 11,308/- for improving - Gourammanakere and construction of a separate pond may be taken up in the order of priority, the remaining items worked out as and when finances permit House connections and public fountains were not provided for in the scheme as the finances of the Municipality were very meagre

The Government in their order No 51345/M1 94-18-2 dated 3rd October 1918, ordered that the scheme prepared for Rs 15,500/- is mainly of improvements to Gourammanakere and cannot be treated as a water supply scheme They further ordered that estimates amounting Rs 2,555/- for improving and deepening the existing six wells and fitting them with hand pumps may be taken up first, the cost being met out of Municipal funds (From the records, it is seen, that the work of - improving the wells by the Municipality was not taken up as ordered by Government

In the year 1923, the citizens of Magadi Town again represented that a scheme for good and adequate water supply to the town may be prepared as the town was experiencing considerable difficulty for drinking water It was also suggested by them that Improvements to Bargavati and Kempasagara tanks and supply from these tanks by either gravitational system or by pumping might be worked out On a thorough investigation, it was found that gravitational system from the two tanks Bargavati and Kempasagara was not possible as the levels were respectively 95' and 23' below the lowest portion of the town Regarding pumping, the scheme could not be thought of as it was prohibitively costly, both in its initial and recurring cost

The Government in their Order No L 2083-6/M1 104-24-1 dated 10th September 1924 reviewed the schemes in their entirety and accorded administrative sanction for the works amounting to Rs 11,480/- for Improving Gourammanakere and allied works, the cost being met by the Municipality and Government in equal proportions

As the estimates were prepared in 1918, the estimates were revised to Rs 12,100/- and technical sanction was accorded in G O No L 433-35/M1 104-24-16 dated 18th July 1925 The works were completed in 1927, ~~and~~ outlay being Rs 10,917/-

In 1930, the residents of Magadi Town again represented to the Dewan that the present supply is not satisfactory and a scheme for pumping water from Hippagondanahalli Reservoir, situated 10 miles from the town may be drawn up Further the Municipal had then resolved that they were not in favour of borewells being drilled in the town A scheme for pumping water through a 9" C I rising main to a height of 600' from the reservoir was worked out, the cost amounting to Rs 4,98,150/- As it was highly prohibitive, the scheme was kept by

In 1946, the President, Municipality, Magadi, again desired in his letter No O C 108/46-47 dated 3rd November 1946 to Mr. Law Dept that an estimate for sinking borewells may be prepared Accordingly, an estimate for Rs 10,000/- for sinking four bore wells in the town was prepared and sent to the Municipality (in this office No 505 dated 10th Decr 1946)

6

for (favour) of) countersignature (The estimate has not been received countersigned so far)

(From the above, it is seen that the source of water supply to the Town is either Gourammanakere or sinking of number of borewells in the area The comprehensive scheme for water supply to the town from any of the two sources will be worked out after receipt of - intimation of funds from the Municipality and its financial position)

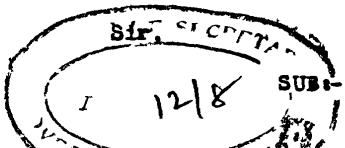
OFFICE OF THE DEPUTY COMMISSIONER
BANGALORE DISTRICT
BANGALORE, Dated: ~~22nd July~~ 11th August 1948

To

JANAB. SYED ABDUL ALEEM, B A.,
Secretary to the Government of Mysore,
Revenue Department, BANGALORE.



Sir,

SUB:- Water supply scheme to Magadi Town:

With reference to your letter No L. 15653/ dated: 7/4/1948, on the above subject, I have the honour to state that the sub-division officer, Closepet sub-division, was requested to report, after gathering the information at Magadi and I am herein enclosing a copy of his report for favour of your kind information

The Magadi Municipality is not at present in a position to meet the cost of the scheme as could be seen from the report of the sub-division officer, further the Municipality expected to receive Rs 5000/- may being the octroi duty due from food section, in respect sugar etc, But it is now definite that the Municipality will not realise any amount more than Rs. 2,300/- Hence the Government, will have to sanction a water supply grant of Rs. 5000/- that is one half of Rs 10,000/- as per estimate prepared by the Sanitary Engineer in 1946 (vide enclosure to your letter No L 3188 dated: 26/8/1947) and the remaining amount (Rs.5000/-) sanctioned as a special grant in considration of the poor financial condition of the Municipality or sanction the same amount as a loan, repayable in 10 annual instalments of Rs 500/- each.

In this connection, I invite kind reference to my letter of even number dated: 5/4/1948, and wish to state that the sanitary Engineer, Bureau of Sanitary Engineering, Bangalore who was requested to state whether his estimate prepared in 1946 for Rs 10,000/- for 4 bores wells hold goods, replies in his letter No 1451/ dated: 7/8-5-1948 that that estimate may have to be revised as due to the abnormal condition the cost of casing pipes is very high the incidental labour charges have also of one up He further states that it is cannot definitely be said if 4 bore wells will be enough as the number of wells requested depends upon the quantity and yeild of each well A copy of his letter is also enclosed for kind reference

The Municipality by leaving a water rate at As 4/- per rupee can realise the amount required for the repayment of the loan of Rs 5000/- in 10 annual instalments with interest The municipal council magadi, has been also to pass necessary

p t o.

to pass necessary resolution in this behalf for the levy of water rate and also for the raising of the loan from Government , as this is the only course left open, and from and the same for Government sanction in due course The Municipal council in their address recently given to His Highness have prayed for the sanction of the scheme of water supply to the town.

In the meanwhile, I request that the Government may kindly be pleased to sanction a water supply grant of Rs. 5000/- and also a loan of Rs.5000/- to the Magadi Town Municipality

I have the honour to be,

Sirm

Your most obedient servant,

DEPUTY COMMISSIONER
for BANGALORE DISTRICT.

Copy of the letter No. Al. P.P 309/47-48, dated 20th May, 1948, from the Assistant Commissioner, Closepet sub-division, Closepet, to the Deputy commissioner, Bangalore district, Bangalore.

Sub - Water supply scheme of magadi town

With reference to your docket No 6 6404/46-47, dated 5/5/48, on the above subject, I have the honour to state as follows -

1 I made necessary enquiries at the Magadi town Municipal office on the 11th instant The president of the Municipality was present. Though the other municipal councillors were sent for none of them turned up

2 A scheme of protected water supply to Magadi town is no doubt an urgent necessity But as my enquiry shows the municipality is not financially in a position to meet its quota of Rs. 5000/- towards the cost of sinking bore wells , at any rate not for the present.

I went through the accounts of the Municipality with a view to ascertain its present financial condition The Municipality has been all along Budgetting for a mohatarfa (Taxes on Lands and buildings), income of Rs 7000/- each year (except for 1947-48 when the estimate is fixed for Rs. 6000/ - the actual collections are as follows -

1942- 43	2659/-
1943-44	4204
1944-45	2823/-
1945-46	4420/-
1946-47	3596/-
1947-48 to the end of april,48	3164/-

This shows that the Municipality has not been realizing what it has been expected to realise under mohatarfa. So much so, arrears, have increased and stand at Rs 11,693-4-2 at the end of march quarter The average income under mohatarfa can therefore be taken as Rs 3500/- per year or Rs.300/- per month which is very low for a town municipality

3 From a study of actuals under Receipts and Expenditures, I found that the Municipality is working at a loss and that its expenditure has been for the past few years much more than its actual income. The cost of maintaining a High School is proving a great strain on the Municipal resources

4. The Municipality has no investment or other resources The present cash balance as on 1/5/48 was Rs 2878-2-11 against which a contribution of Rs.1910/- has to be credited to Sri Ranganathaswamy temple as the temples' share of the Jathara realizations It has also to pay Rs 1900/ - towards acquisition charges which is over due and for which it has no funds

5 As regards other sources on which the municipality can count, there is the question of refund of octroi amount by Government The Municipality has been for long demanding Rs 5000/- as due from govt., in this behalf this question has already been decided Only a sum of Rs 1924- 11-0, is due to municipality on this account (vide D C's memo No P5 234/47-48, dated 6/5/1948)

A further sum of about Rs 500/- will perhaps have to be paid to the municipality as octroi on the sale of xxxxxxxx stare cloth sold in Government depot between 8-12-43 and 11-11-46. The exact amount has still to be worked out by the Amildar and necessary accounts are to be submitted for Deputy Commissioner's sanction It is thus seen that only a sum of about Rs 2300/- is due by Government to the municipality and not Rs 5000/-.

6) The President brought to my notice that as the Municipality has paid for the acquisition of land for the municipal High School and as the estimate for the High School being Rs.52,000/- includes the acquisition cost, he expects a xx refund of Rs.3039-13-10 xxxxxxxxxxxxxxxxxxxxx

XXXX.XXX as amount due towards cost of acquisition But as such refund depends upon the final accepted tender rate for the High School the prospects of the Municipality in regarding this amount are not definite; at least not till the High School Building is completed

7) The Municipality has a drainage scheme on hand It was originally estimated for Rs 4000/- (vide Director of Public Healths' letter No C 1945-50, dated 30-12-37) As the entire amount was not deposited by the Municipality the estimate was modified to Rs 2307/- This work is reported to have been completed But in July 44 the Municipality resolved to take up further drainage work costing Rs 10,000/- and promised to contribute Rs 5000/- out of its closing balance Later as the Municipality desired for a complete revision of the comprehensive drainage scheme for the Town, a revised estimate for Rs. 1,19500/- was prepared and sent to the Municipality by the Sanitary Engineer on 14-1-45, for countersignature This bears reference to D C 's memo No M6-6404/46-47, dated 19-1-48 This [illegible] record is still pending in the Municipal office for the reason that it is not in a position to contribute its quota of half the cost

8) This Municipality has not yet paid its annual contributions towards Maitenance of Hospital and Veternary Dispensary, Vacination limph charges etc , during the year

9) At its meeting dated 10-5-48 the Municipal Council have resolved to request Government for a total grant of Rs 22,500/- as detailed below -

Rs 5000/- for water supply
Rs 5000/- for drainage
Rs 7500/- for construction of market
Rs 5000/- for Bus stand

As such grants are conditional upon the Municipality contributing equal amount, it is problamatical as to how the Municipality can meet its quota towards costs of these orks

10) I also tried to ascertain the posibilities of improving the finances of the Municipality It is ascertained in this connection that the present rates of octroi on kerosine and other oils have

P T O

In this connectdon I beg to invite kind reference to three important aspects by which the municipal finances can be improved One is that the collection work should be much more effective. The present monthly mohatarfa colletion is only about Rs.300/- secondly as the mohatarfa taxes were revised as long back as 1936-37 the revision of assessment has to be taken up immediately. There appears to be much leakage for want of revision of assessment. Thirdly, the Municipality should prepare comprehansive schemes of Town extensionfor which there appears to be a necessity, acquiring lands and augumenting its funds by sale of sites For these, the Municipal Council should shed its internal faction, if any, and work in unision for the common good of the rate payers.

I have etc.,

No. 3214

Dt. 25/9/48

The Dy Commr

Bangalore District

Subject - Water supply Scheme to Nagarthpet Town

—

Sir,

With Reference to the Correspondence ending with your letter No N 6 - 6404/46-47 dated 11 8 48 on the above subject, I am directed to state that before considering the question of making a grant to the Municipality for this work and determining the mode of financing the Scheme, it is necessary to get an estimate prepared based on the current Rates to know the exact Cost of the work. Further, the finances & the Municipality are reported to be very unsatisfactory and the repayment of the loan to be sanctioned if any, is seen to depend on various factors, such as economising the expenditure, levy of water Rate, Taxes & Cess etc. The rate of

of which
attach all take have to materialise even if
Serious efforts are made in this direction
Hence a deputation & the Municipal
Council guarantees Rep the Repayment &
the loan from the available resources if necessary
Since this question has been delayed long
and also forms the subject matter of
a Resolution tabled for the ensuing R 1
meeting, I Request you to take
immediate action in this behalf and to
submit Concrete proposals for the orders
of Govt without the least delay

Yours faithfully

No M6 6404/46-47,

To

ml 61-48-32

Janab Mir Safdar Hussain, B A ,

General Secretary to Government,

BANGALORE

Sir,

Subject: Water supply Scheme to Magadi.

With reference to the correspondence ending with your letter No L 3214 dated 24/25th September 1948 on the above subject, I write to state that the local Municipal Council have resolved in their meeting held on 5 12 1948 to repay the loan applied for from out of the income of the Municipality which is expected to be increased on account of the revision of assessment recently effected and by the levy of water fees at 0-4-0 per rupee of Mohatarfa assessment A copy of the resolution is enclosed for favour of reference

As regards the actual cost of the estimate based on the current rates, I enclose herein a copy of letter No 577 dated 6 11 1948 received from the Sanitary Engineer, together with a copy of his previous letter referred to therein from which it is clear that the probable cost of the scheme cannot be estimated at present until one or two Bore - wells are sunk and their yield is tested

In these circumstances, I request that Government may be pleased to sanction a water supply grant of Rs 5,000/- and a loan of Rs 5,000/- as already recommended in my letter of even number dated 11 8 1948, subject to enhancement at a later date

Yours faithfully,

DEPUTY COMMISSIONER,
BANGALORE DISTRICT (RURAL),
ar Absent from HQ

Re: Water supply scheme to Magadi Town

With reference to your letter No M6 6404/46-47 dated, Bangalore, 5th April 1948 addressed to the Secretary to Government, Revenue Department, Bangalore and copied to this office, I have the honour to state that an estimate for Rs 10,000/ for sinking 4 bore - wells may have to be revised as due to abnormal conditions, the cost of casing pipes is very high and incidental labour charges have also gone up Since the number of bore-wells to be sunk is not yet definite as it depends upon the quantity of water available from each bore-well after it is sunk, if the amount of Rs 10,000 is made available towards the sinking of the bore-wells, the work can be started The exact location of the bore-wells, ~~the~~ will be decided by the undersigned after detail inspection when funds are made available I cannot certainly predict that four bore-wells will be sufficient for water supply to Magadi Town It is a matter of chance and frankly, it is an experiment as in all other places What the exact yield from each bore-well will be and how many bore-wells will have to be sunk, cannot be decided at present until one or two bore wells are sunk and ~~is~~ yield tested

SIR,

Re:- Water Supply to Magadi Town

I have the honour to state that there is no water-supply in this town and it is a very long felt need of this town The people are undergoing much hardship on account of the scarcity of water

On several representations being made to Government in this behalf, the Government generously sanctioned a grant of Rs 5000/- with instructions to sink at least two borewells for collecting data - regarding yield etc so as to enable final estimates being prepared for the water supply scheme to this town vide G O.No L 10144-8/ML 61-48-33 dated 5-3-49 According to these instructions, the Government grant was drawn and placed at the disposal of the Sanitary Engineer. The Deputy Commissioner, Bangalore District, too in his D.O. letter no ML-6404/46-47 dated 18-5-49 has asked the Sanitary Engineer to take up this work early giving it the first preference

Now, the Sanitary Engineer in his letter no 2526 dated 7-6-49 forwarding a revised estimate for Rs 6700/- for sinking two borewells for countersignature and payment of balance of Rs 1700/- states that this work

can not be taken up for 6 months more as the drells are not available

2. This was placed before the council at their meeting held on 30-6-49 The council were of opinion that always such important works are delayed execution often and the estimates are revised often and often By the time the council obtains sanction and funds are deposited, it takes some months and the Dept. finds some difficulty or the other forwards revised estimate again stating that the work as per the previous estimate can not be executed The important works like this are therefore delayed So, the council resolved to bring this to the notice of the Government with a request to kindly order for early execution of the work and that, to accord sanction for payment of the balance when the work is taken up for execution The letter and the revised estimate together with a copy of the Resolution of the council submitted herewith for favour of kind perusal and early orders

Yours faithfully

President

Town Municipal council,
Nagadi

Sir,

Sinking borewells for water supply
to Magadi Town.

GL 701 18-6-49

With reference to your letter No.MLC.575/48-9 dated 11-5-49 forwarding the duplicate chellan for having credited the Government grant of Rs. 5000/- sanctioned in G.O.No.L.10144-8/ML 61-48-33 dated 5-3-49 towards the cost of sinking two borewells for ~~the~~ supplying water to the above town, I write to state that the work has been entered in the priority list.

From the equipment available and the work on hand, I am unable to take up the work for a period at least six months to come as the drills are not likely to be released earlier for no work can be left in an half finished stage.

Pse 11/6/49

To be put up before Council

put up copy of the resolution of the Council for reply 2/7/49

However I assure you that all expedient action will be taken to take up the work with least delay.

Regarding the cost of sinking one borewell, due to increase in cost of materials, the total amount has swelled up to Rs. 3350/- from Rs. 2500/- as provided for in the estimate originally submitted I enclose herewith a revised estimate for Rs. 6700/- for sinking two borewells for favour of countersignature and request that the Rs. 1700/- may kindly be arranged to be deposited early

2-7-49

SECT. ARY TO GOVT OF MYSORE No Date 1949 GENERAL DEPARTMENTS

Re Water Supply to Magadi Town.

With reference to letter No 1 H C 8/48-49 dated the 5th July 1949 from the President, Municipal Council, Magadi, to your address regarding the above, I write to inform you that the Sanitary Engineer Bangalore, has reported that there are only 12 drill working on sinking of borewells throughout the State and all the drills which are fully engaged are not likely to be released earlier than at least six months. The procedure adopted in executing the work of sinking borewells is on priority basis which is compiled by registering according to the date of deposit of the amount It is further stated that with the limited equipment available and the number of borewell works on hand pending execution according to the priority list, he has unable to take up any fresh work earlier unless the equipment of the section is further augmented by purchasing additional drills. However proposals have been submitted to Government for the purchase of additional drills and order thereon are still awaited.

Regarding the revision of the estimate, it is stated that the estimate amounting to Rs.10,000/- for sinking four borewells were prepared during 1946 and forwarded to the Municipal President, Magadi so far back as December 1946 The present cost of sinking are one borewell has swelled up to Rs 3,350/- due to high cost of casing pipes and other increased incidental charges Under these circumstances a revised estimate amounting to Rs.6,700/- for sinking two borewells is stated to have been prepared by the Sanitary Engineer and forwarddd to the Municipal President for countersignature and deposit of the balance fund of Rs 1,700/- on receipt of this amount necessary further

P t o

further action will be taken by the Sanitary Engineer, to execute this work on priority basis.

Yours faithfully,

8/9/18

B A N G A L O R E

Subject

Subject:- WATER SUPPLY SCHEME FOR MAGADI TOWN

***

SIR,

With reference to your letter No.L.15139 dated 18.3.1952 on the above subject, I write to enclose herewith a copy of resolution of the Municipal Council, Magadi, resolving to raise a loan of Rs.5,950/- to meet the Municipal quota towards the sinking of bore wells. The President's report enclosed herewith is eft self explanatory and the present financial position of the Municipality does not permit it to meet the entire amount at once. So the Council have decided to raise a loan of Rs.5950/- repayable from out of the sites to be formed near Kalya gate. The acquisition proceedings are nearing completion and the Municipality will be in a position to repay the loan during 1953-54.

The Town is suffering from a long time without proper water Supply and the Scheme has to be taken up immediately.

In the above circumstances, I request that orders of Government may kindly be obtained sanctioning a loan of Rs.5950/- repayable with interest at 5% as soon as the sites near Kalya gate are sold or in 5 annual instalments beginning from 1953-54.

Enclosures accompany.

Yours faithfully,

Sir

Subject - Sinking of three Bore wells in connection with water supply scheme in Magadi town

Ref 22345 with reference to your kind Memo No Mf 6404/46-47 dated 19th April 1952, forwarding a copy of the letter no 1194 dated 9-4-1952, received from the controller of central stores, P W D on the above subject, requesting to return the Estimate amounting to Rs 10,500/= for the above work after duly countersigned with the Balance funds of Rs 5950/= for taking further action in the matter Etc, I beg to state that a reference in this office Letter No He 8/47-48 enclosures 9. dated 5-2-1952 has been submitted to you requesting to recommend to the Government in view of the blender for finance of this municipality for a grant of Loan amounting to Rs 5950/= to meet the needs as required, and to implement the water supply Scheme in this town during the year 1951-52 But after receipt of your kind memo no Mf 6404/46-47 Enclosures dated 11-2-1952, directing to renew the request for the next year (1952-53) and assign the sources for the repayment of the Loans Etc

5.2 I beg to State that the Subject was again placed before the municipal council at their Special meeting held on 8th May 1952 in the municipal office, and unanimously resolved to request the Govt for grant of loan amounting to Rs 5950/= due to meagre financial-Condition of the municipality and the loans will be repaid after the Sale realisation of land S no 266/2-3, and 4, near Kalya gate, has been received in one lumpsum, as the acquisition proceedings have almost been completed. The Sale realisation anticipated will be about Rs 15000/= The Extract of the Resolution is herewith enclosed for favour of kind perusal.

On the circumstances stated above, I request you kindly recommend to the Government for a grant of loan amounting to Rs 5950/= for water supply Scheme, So that the Scheme may be implemented urgently, at least this year. The favour of immediate sanction is requested

The connected records accompany for favour of kind perusal and reference

Yours faithfully

Sir Sub - Sinking of three Borewells for providing water supply to Magadi Town

Ref 150 8b In inviting kind reference to your memo No MB 6404/46-47 dated 10th December 1951 suggesting that the closing balance of the municipality will not permit to meet the loan instalments and a definite source of Revenue will have to be set apart to meet the loan instalments etc

I beg to state, that the subject was placed before the municipal council at their meeting held on 31st January 1951, the extract of which is being enclosed here with for kind perusal and needful The council resolved that the water supply to this town is very essential and urgent considering all aspects of this town, and regarding the source of Revenue for repayment of loan instalments they definately point out to consider, that the acquisition proceedings to acquire Lands in S Nos 266/2 3 & 266 & and 268 for town improvement are being carried on and the same is expected to be completed early and and the Lands will be formed into building Sites and disposed of by public auction the probable amount expected by selling the said Land to be realised, is not less Rs 15.000/- to Rs 20.000/= The full amount for water Scheme will be set apart from

3 — I beg to state that the Subject was again placed

4. The said readjustment and loan will be effected & in one lump sum only annual equal instalments In view of the facts stated above, I request you kindly recommend to the Government for sanction of loan during the current year itself, so that the water supply Scheme may be implemented urgently. The favour of an early orders is requested in this behalf the connected records are here with enclosed for favour of kind perusal and needful

News

Returned to the President, Municipal Council, Magadi, Water Test can not be leared till water supply is made to the town and mere sinking of three bore wells will not provide water supply to the town till a Comprehensive Scheme is taken up. The closing balance of the Mly will not permit it to meet the loan instalment as could be seen from the Budget estimates of the Mly of the previous years A adequate source of revenue will have to be set apart to meet the loan instalments this may be considered and intimated to this office early

OFFICE OF THE PRESIDENT
TOWN MUNICIPAL COUNCIL MAGADI
Dated, 3rd August 1951

To The Deputy Commissioner
Bangalore District
Bangalore

M.L. 2567

Sir,

Subject — Sinking of three bore-wells in Connection with water supply to Magadi town

With reference to your letter No abs-61004/6547 dated 6th July 57 on the above subject and directing to report as to the action taken in the matter I have the Honour to state that the subject was placed before the Council at their meeting held on 31/7/957 and they have resolved that as the Municipal Council is not in a position to pay this sum of Rs 57 50/- owing to its poor finances and Government may be requested for a grant of Rs 57 50/- to meet the same

A copy of the Council resolution is received enclosed for favour of kind perusal

In this Connection I have to state that as per last para of letter No 1888 dated 16th July 57, the Controller of Stores & Works has stated that the question of preparing detailed water supply scheme could be taken up after all the 3 bore-wells are sunk and their field tested, and as with these details

declares the Scheme cannot be prepared &c as such, for these preliminary works the help of the Government is necessary.

I, therefore, beg to request you to kindly recommend to Government for a grant to meet the Cost of Sinking bore-wells

Yours faithfully

H Subbarao

President

the Town Council Nagaon

No 6404/46-47 dtd 8.

Memo

Returned to the President, Municipal Council, Nagaon. It is one of the obligatory duties of the Municipality to provide water supply to the Town and as such the Municipality should find finances for taking up the Scheme. Govt have already sanctioned a grant of Rs 5000/- and if the Municipality were to meet its quota of expenditure i.e. Rs 5425/-, a recommendation can be made to Govt to sanction a further grant of Rs 425/- to make up the other half of the same. To

The President,
Town Municipal Council,
Magadi.

Sir,

Re - Sinking of three bore wells in connection with Water Supply to Magadi Town

---

With reference to your memo letter No H C.8/48-49 dated 11th June 1951, forwarding copy of letter No H.C 8/48-49 dated 2-6-51, addressed to the Deputy Commissioner, Bangalore District, Bangalore, on the above subject, I am forwarding herewith, an estimate amounting to Rs 10,500/- for sinking 3 bore wells in Magadi Town, together with a report explaining the provisions, for favour of your countersignature and early return with funds, for taking further action in the matter.

As there is already a credit of Rs 4,550/- excluding the cost of Rs. 450/-, for ~~taking~~ testing the yield of the well out of the Government grant of Rs. 5,000/- sanctioned during 1949, I request you kindly to place the balance amount of Rs 5,950/- at the disposal of this office early.

TOWN MUNICIPAL OFFICE
M A
No. 5 L 307-51-52
Date 13-7-51
Encl

The question of preparing a detailed water supply scheme will be taken up after all the 3 bore wells are sunk and their yield tested, as without these details, the scheme cannot be prepared

Yours faithfully,

Controller of Central Stores,
P W Dept

Report to accompany the estimate for sinking three bore-wells at Magadi Town, for water supply to Magadi Town

---

1) During 1946, an estimate amounting to Rs 10,000/- for sinking 4 bore wells in connection with water supply to Magadi Town was got up by the Sanitary Engineer, of the late Sanitary Bureau, and was forwarded to the President, Town Municipal Council, Magadi, for countersignature and placing funds. This estimate was submitted to the Government by the Municipal Council through the Deputy Commissioner, Bangalore District, for sanction and allotment of necessary grants, and the Government in their order No L.10144-8/M1 61-48-33 dated 5-3-49 sanctioned Rs. 5,000/- in favour of Municipal Council, out of water supply grants during that year for taking up atleast two trial bore wells and collecting data regarding yield etc., for finalisation of the water supply scheme, in response to letter No M 6-6404-8/M1.61-48-33 dated 29-1-49 of the Deputy Commissioner, Bangalore District The above estimate amounting to Rs. 10,000/- was returned by the President, Town Municipal Council, Magadi, duly countersigned and placing the Government grant of Rs 5000/- at the disposal of the Sanitary Engineer, with a request to take up the work immediately vide, his letter No M L C. 575/48-49 dated 11-5-1949. Since the cost of casing pipes, incidental charges, etc., had risen up by the time, the work could be taken up as the original estimate was prepared during 1946 (ie , 3 years prior to the sanction of the estimate), a revised estimate amounting to Rs. 6700 for sinking 2 bore wells was forwarded to the President, Town MunicipalCouncil, Magadi, for countersignature and placing the extra amount of Rs 1,700/- for taking up the work, vide Sanitary Engineer's letter No 2526 dated 7-6-1949 On this, the President, Town Municipal Council, Magadi, vide his letter No H C 8-48-49 dated 5-7-49, addressed the Secretary to Government, General Department requesting Government sanction for the balance amount of Rs 1700/- and orders for taking up the work due to urgency

2) At this stage, since a draw well was placed at the disposal of the President for the use of water supply to the town, the President, Town Municipal Council, Magadi, requested the Sanitary Engineer vide, his letter No H C 8/48-49 dated 19-7-1949 to take up the question of water supply to the Town from the draw well An estimate amounting to Rs 450/- for testing the yield of the draw well was sent up to the President, Town Municipal Council, Magadi, and the cost of this work was proposed to be met out of the Government grant of Rs 5000/- kept at the disposal of the Sanitary Engineer, vide President's letter No 8/48-49 dated 11-10-1949 On this, opinion of the President on the question of sinking bore wells immediately as the work of testing the yield of the draw well could be taken up during the regular summer months was sought and the President opined that there was no necessity for sinking bore well then since a draw well has been selected for water supply and that if necessity arises after testing the yield of the well, sinking of bore wells could be taken up, vide his letter No H C.8/48-49 dated 10-12-1949 addressed to the Chief Engineer, Roads and Buildings. In view of all these, the question of sinking of bore well for water supply to Magadi was left at that stage and was not pursued further.

3) After considerable correspondance, the yield of the draw well was however, tested and the President was intimated that the proposal of water supply to the town from the draw well is not feasible and the original proposal of water supply by bore well had to be revoked, vide letter No 1003 dated 29-5-51 of the Controller of Central Stores, P W Department, Bangalore

4) In response to this letter, the President, Town Municipal Council, Magadi, has requested vide his letter No H C 8/48-49 dated 2-6-1951 for sending up an estimate for sinking three bore-wells and this estimate is the outcome of that request.

5) The cost of the estimate with all the necessary provisions like, casing pipe, consumables, transportation charges on the drill, Establishment charges, Temporary labour, providing Watchman and a shed for housing the materials and the Watchman, etc , at current rates comesto Rs. 3,500/- for each well with a grand total of Rs. 10,500/- for three bore wells. Details for the lump sum provisions made in the estimate will be furnished during execution. Certain common items like transportation charges, etc , will be deleted if found unnecessary.

6) Out of the Government grant of Rs. 5000/- sanctioned during 1949, a sum of Rs. 4,550/- excluding the estimate and the cost of testing the yield of the well viz., Rs. 450/- is available at the disposal of this Department and the balance amount of Rs. 5950/- required will have to be met by the President, Town MunicipalCouncil, Magadi Town.

LETTER No H C 8/48-49 from the President, Town Municipal Council, Magadi, to the Deputy Commissioner, Bangalore District, Bangalore.

Re - Sinking of three Bore Wells in connection with water supply in Magadi Town

---

With reference to your kind Memo No.6404/46-47 dated 19th April 1952, forwarding a copy of the letter No 194 dated 19th April 1952, received from the Controller of Central Stores, Public Works Department, on the above subject, requesting to return the estimate amounting to Rs 10,500/- for the above work after duly countersigned with the balance funds of Rs 5,950/- for taking further action in the matter etc , I beg to state that a reference in this office letter No H C 8/47-48 enclosures 9, dated 5-2-1952 has been submitted to you requesting to recommend to the Government in view of the slendar finance of this Municipality for a grant of loan amounting to Rs 5,950/- to meet the needs as required and to implement the water supply scheme during the year 1951-52. But after receipt of your kind Memo No.M6.6404, 46-47 enclosures, dated 11-2-1952, directing to renew the request for the next year 1952-53 and asking the sources for the repayment of the loans etc , I beg to state that the subject was again placed before the Municipal Council at their special meeting held on 8th May 1952 in the Municipal Office and unanimously resolved to request the Government for grant amounting to Rs 5,950/- due to meagre financial condition of this Municipality and the loans will be repaird after the sale realisation of land S No 266/2, 3 and 4 near Kalya Gate has been received in one lumpsum, as the acquisition proceedings have almost been completed The sale realisation anticipated will be about Rs 15,000/- The extract of the resolution is herewith enclosed for favour of kind perusal

In the circumstances stated above, I request you kindly recommend to the Government for a grant of loan amounting to Rs 5,950/- for water supply scheme so that the scheme may be implemented urgently at least this year. The favour of immediate sanction is requested.

The connected records accompany for favour of kind perusal and reference.

Copy is forwarded with compliments to the Superintending Engineer, Tumkur Circle, Tumkur, for favour of kind information

23 September 1952

Dear Sir,

Subject - Water-supply to Magadi Town

With reference to your letter No.929-31/S. dated the 3rd June 1952 on the above subject, I am desired to state that in view of the urgency of the supply of water to the town, Government sanctioned a sum of Rs.5,000/- in Government Order No.L.10144-8/Rd.61-48-33 dated the 5th March 1949 with definite instructions to take up at least two trail bore-wells so as to facilitate (1) collection of data regarding yield per hour and (2) preparation of final estimates for the water-supply scheme to this town.

2 The Sanitary Engineer instead of starting the work, pleaded inability to take up the work on the ground that the drills were at work elsewhere and that it would take atleast six months to release them for work at Magadi and that revised estimate for Rs 6,700/- may be accepted and the excess amount of Rs 1,700/- over the sanctioned sum of Rs 5,000/- may be deposited early (Vide his letter No 2526 dated 7th June 1949 addressed to the President, Town Municipal Council, Magadi)

3 Though the reason adduced by him regarding the drills may be accepted, yet the work could have been taken up after six months as stated by him However the work was not taken up Instead, the proposal for sinking four bore-wells was taken for consideration and an estimate for Rs.10,500/- for sinking three bore-wells was prepared (vide letter No.1888 dated 10th July 1951 of the Controller, Central Stores, Public Works Department addressed to the President, Magadi Town Municipal Council) and the Superintending Engineer was instructed by the Chief Engineer in letter No 21250-2 dated the 12th Feb 1952 to obtain the balance of amount from the Municipal Council with the result that the work has not at all been taken up till now

4. It is clear from the foregoing, that for some reason or other the drilling work is not started till now. It may be stated that atleast two bore-wells could have been completed by now out of the

grant of Rs.5,000/- sanctioned, if the concerned authorities, especially the Sanitary Engineering Department, had taken up the matter either seriously or according to priority basis.

5. Government, therefore, desire to have the explanations of those responsible for this delay in the execution of the work. The same may be obtained and forwarded for orders.

6. Further, I am to request that even now the Sanitary Engineering Department may be instructed strictly to take up the work at once with the funds available and periodical progress report sent to Government positively

Yours sincerely,

To

Sri D S VENKANNA, B.Sc.,B.E.,A.M.I.E.,
Chief Engineer of Mysore,
Bangalore.

Dear Sir,

Subject - Water-Supply to Nagadi Town

With reference to your letter No 929-31/S dated the 3rd June 1952, on the above subject, I am ~~directed~~ desired to state that in view of the urgency of the supply of water to the town, Government 'A' sanctioned a sum of Rs 5,000/- in G O No L 10144-8/ M1 61-48-33 dated the 5th March 1949 with definite instructions to take up at least two trail bore-wells so as to facilitate (1) collection of data regarding yield per hour and (2) preparation of final estimates for the water supply scheme to this town

2 The Sanitary Engineer instead of starting the work, pleaded inability to take up the work on the ground that the drills were at work elsewhere and that it would take atleast six months to release them for work at Nagadi and that revised estimate for Rs 6,700/- may be accepted and the excess amount of Rs 1,700/- over the sanctioned sum of Rs 5,000/- may be deposited early 'M' (Vide his letter No 2526 dated 7-6-49 addressed to the President, Town Municipal Council Nagadi)

3 Though the reason adduced by him regarding the drills may be accepted, yet the work could have been taken up after six months as stated by him However the work was not taken up Instead, the proposal for sinking four bore-wells was taken for consideration and an estimate for

for Rs 10,500/- for sinking three bore-wells was prepared (Vide letter No 1888 dated 10-7-51 of the Controller, Central Stores, P W D addressed to the President, Magadi Town Municipal Council,) and the Superintending Engineer was instructed by the Chief Engineer in letter No 21250-2 dated 12-2-1952 to obtain the balance of amount from the Municipal Council with the result that the work has not at all been taken up

4 It is clear from the foregoing, that for some reason or other the drilling work is not started till now It may be stated that alteast two bore-wells could have been completed by now out of the grant of Rs 5,000/- sanctioned, if the concerned authorities, especially the Sanitary Engineering Department, had taken up the matter either seriously or according to priority basis

5 Government, therefore, desire to have the explanations of these responsible for this delay in the execution of the work The same may be obtained and forwarded for orders

6 ~~In the circumstances~~ Further, I am to request that even now the Sanitary Engineering Department may be instructed strictly to take up the work at once with ~~out of~~ the funds available and periodical progress report ~~be~~ sent to Government positively

Yours ~~faithfully~~ Sincerely,

Secretary to Government,
L S G Department

Bangalore

Sir,

Re - Sinking of borewells in connection with Water Supply to Magadi Town

*****

With reference to your D O letter No L 9865 dated 23-9-52 regarding the above, I write to inform that it is reported by the Controller of Central Stores, that originally an Estimate amounting to Rs 6,700/- for sinking only two borewells was forwarded to the President, Municipal Council, Magadi, for countersignature and providing extra funds to the extent of Rs 1,700/- (as per Sanitary Engineer's letter of 7-6-49) A deposit of Rs 5,000/- was received during May 49 A draw well to test the yield in connection with water supply to the town, was also sunk at a cost of Rs 450/-, as desired by the Municipal Council Thus the credit balance was Rs 4,550/- at the disposal of the Controller of Central Stores

During June 1951, the President, Town Municipal Council, desired to have 3 borewells sunk Accordingly, an Estimate amounting to Rs 10,500/- was got up and sent during July 1951, for countersignature and to provide the additional funds of Rs 5,950/- But neither the Estimate is received back nor the extra funds so far, inspite of several reminders issued by the Controller of Central Stores

It is also reported that the claim is entered in the priority list and stands as item 10 It may take 6 to 8 months before a drill could be made available for the purpose

P T O

Purpose.

Yours faithfully,

(H.C.K. BHATTA)
Deputy Chief Engineer
